Good Morning Jennifer,
The ICMv recordings are stored in our data center in Texas.

My best,

Afternoon-

VSP reached out to me again regarding this question. Can you tell me what state the server the calls are stored on is located.

Thank you,
Jen

Ha! I had no clue either so that's why I asked you guys directly instead of going through Bob. If it helps, the reason for the question is for the feds to determine jurisdiction.

Great thanks I will pass this on to the prosecutor I'm working with. Does the call routing through GTL mean that it's being received or otherwise processed in another state? If so, can you advise which state ?
